

**Alaska SeaLife Center®**  
*w i n d o w s   t o   t h e   s e a*

*The Alaska SeaLife Center, a non-profit organization dedicated to marine research, rehabilitation, conservation, and public education is seeking applications for the following:*

### **Building Maintenance Technician**

**This position is responsible for the operation, maintenance and repair of the building, mechanical, and life support systems at the Alaska SeaLife Center.**

**Responsibilities (include but are not limited to):**

- Maintain animal life support systems (LSS).
- Follows scheduled routine for LSS rounds and mechanical checks.
- Performs routine preventive and breakdown maintenance on all aspects of the ASLC building and its operating systems. Including but not limited to electrical, plumbing, HVAC, and building construction.
- Maintains familiarity with all aspects of LSS including electrical, plumbing, and mechanical systems.
- Visually monitors water quality in habitats and aquarium systems.
- Maintains grounds, roof, sidewalks, and pier in safe and clean condition.
- Works with other relevant departments to ensure that exhibit galleries are always clean, and well maintained.
- Regularly inspects all lighting fixtures and replaces bulbs when required.
- Works with Operations Manager to maintain an inventory of bulbs and related lighting parts.
- Conducts daily, weekly and monthly checks of all mechanical systems.
- Operates pickup based snow plow. Responsible for ensuring that all outside trafficable areas are safe and free from snow and ice. Shovels snow and dispenses ice melt and/or grit as required.
- Demonstrates an excellent working knowledge of the safe and proper use of hand tools, power tools and test equipment used in daily activities.
- Assists in the fabrication and repair of exhibits.
- Assists with the maintenance, repair and overhaul of major plant equipment.
- Must be fully capable of reading technical drawings, technical specification and written repair/maintenance procedures with minimum supervision.
- With supervisor's approval, assists Research Departments with mechanical tasks.
- Keeps proper records in accordance with ASLC policies and permits.
- Maintains familiarity with MSDS system and hazardous communications
- Works a rotating shift, an on-call schedule, and/or overtime as needed.
- Maintains a valid driver's license.

**Requirements:**

High school diploma or GED with completion of an apprenticeship as a carpenter, electrician, plumber or other recognized trade; or high school diploma or GED and five years experience in a similar position. Ability to be organized and self-motivated.

This is a full-time position. The SeaLife Center offers a competitive wage (DOE) with great benefits.

**Start Date: ASAP      Apply by: Open until filled**
